

Which lock is this?

All five at the same scale. Identify on LENGTH first, then the keypad.

KS150 155 mm long		KS200 193 mm long		KS250 255 mm long		KS280 280 mm long		KS300 303 mm long	
									
Panel	155 x 64 mm TO CONFIRM	Panel	193 x 75 mm	Panel	255 x 65 mm TO CONFIRM	Panel	280 x 65 mm	Panel	303 x 43 mm TO CONFIRM

USB power	behind lower front cover	USB power	bottom edge	USB power	not published	USB power	bottom edge	USB power	not published

THE TWO TELLS

The KS300 is the only one with a 2 column keypad, and the only one 43 mm wide. The KS200's bottom right key is # inside a bell: it is the only one with a DOORBELL. None of these five has a fingerprint reader. The KS250 and KS280 are the same body in two lengths, so measure: 255 mm against 280 mm.
